Providence Sacred Heart Medical Center and Spokane Teaching Health Center Residency Programs

Visiting Medical Student Clerkships, Electives and Observership

VISITING MEDICAL STUDENT POLICY

Introduction:

Providence Sacred Heart Medical Center and Spokane Teaching Health Center Graduate Medical Education Committee (GMEC) believes that resident education is enhanced by participating in the training of medical students from its affiliated medical schools, the University of Washington School of Medicine and Pacific Northwest University of Health Sciences. Since various residency programs receive requests for clerkships from visiting medical students outside of the University of Washington and Pacific Northwest University, GMEC developed this policy to define training prerequisites and application requirements to ensure not only a uniform application and screening process but also the expectations of what that training will involve. While GMEC originally wrote the policy for those medical centers that are the core sites for residency training, the policy has been picked up and implemented at all medical centers in Spokane.

Outline of the Visiting Medical Student Policy:

- 1) Visiting medical students are those from schools other than the University of Washington and Pacific Northwest University of Health Sciences.
- 2) The application packet lists the prerequisites and documents needed before a decision can be made regarding granting a medical student rotation within the medical center.
- 3) For third and fourth-year medical students training in an allopathic or osteopathic United States medical school, the responsible entity for review of the application packet and granting of approval depends on where the training will occur:
- i) If the rotation is at either Providence Sacred Heart Medical Center or the Spokane Teaching Health Center, the residency program that supervises residents on that rotation will verify completion of application, grant approval and then notify both GMEC and the medical staff office of the rotation by submitting a copy of the verification checklist. The original application form and documents will be kept with the residency program.
- ii) If the rotation is at either Deaconess Medical Center, Valley Hospital Medical Center or Providence Holy Family Hospital, the medical staff office will verify completion of application and grant approval. The original application form, documents, and checklist will be kept in the medical staff office.
- 4) For medical students training in international medical schools, **rotations may be available but only under the direct supervision of one the Spokane residency programs.** The availability will be at the discretion of the residency program which supervises residents on that rotation.
- i) The residency program will verify completion of application, grant approval and then notify both GMEC and the medical staff office of the rotation by submitting a copy of the verification checklist. The original application form and documents will be stored with the residency program.
- ii) The GMEC has the option of making the final decision regarding approval of the application.
- 5) Completion of medical student evaluation forms is the responsibility of the physician or the residency program supervising the student. A copy of the evaluation form should be kept in the offices of the responsible party.
- 6) The ultimate responsibility for the quality and content of the training experience as well as the supervision of the medical student while on the rotation resides with the physician or the residency program sponsoring the medical student.

CLINICAL CLERKSHIP OR ELECTIVE OPPORTUNITIES STUDENTS FROM U.S. OR CANADIAN MEDICAL SCHOOLS

(ACCREDITED BY THE LCME OR AOA)

The residency programs and medical centers in Spokane have formal affiliation agreements with the University of Washington (UW) School of Medicine and the Pacific Northwest University of Health Sciences (PNWU) to provide clerkship and elective training for their school's third- and fourth-year students. Depending on available slots, each residency program has the option of offering clinical clerkships or electives to third or fourth-year students from other medical schools.

To be eligible for consideration, students must meet all of the following criteria:

- 1. Students must be candidates for the M.D. or D.O. degree in good standing in a school accredited by the Liaison Committee on Medical Education or Education Department of the American Osteopathic Association.
- 2. Students must be either U.S. citizens or have a valid U.S. visa.
- 3. Students must have completed a program on universal precautions within the last 18 months ensuring the appropriate handling of blood, tissues, and body fluids.
- 4. Students must have completed their school's training module or course in HIPAA Compliance.
- 5. Students must comply with the following immunization policy:
 - PPD: within the past 12-month period. Converters: initial chest X-ray, isoniazid (INH) x 6 months.
 - Tetanus/Diphtheria: primary series plus TD booster within last 10 years.
 - MMR (Measles, Mumps, Rubella): 2 positive serologies or 2 doses of vaccine after 1968 (the last after 1979).
 - Hepatitis B: series of 3 inoculations and follow-up titer.
 - Polio: complete primary series of oral trivalent vaccine or IPV (injectable) plus booster after the age of 4.
 - Flu vaccine: within the past 12-month period.
 - COVID Vaccine: 1st and 2nd dose required as per the manufacturer

If you meet the criteria listed above and wish to apply for a clinical clerkship or elective, please complete and return the application form.

PLEASE NOTE THE FOLLOWING STIPULATIONS:

- A. The elective must be sponsored by one of the Spokane Residency Programs.
- B. The elective can only be in the specialty of the sponsoring Residency Program. Thus, students will be limited to training in internal medicine, family medicine, radiology, physical medicine and rehabilitation or psychiatry. No surgical or medical subspecialty rotations will be available to these students since Spokane does not have ACGME- accredited residencies or fellowships in these fields.
- C. The attending physician on the rotation must be a full-time faculty member rather than volunteer faculty member of the Residency Program sponsoring the student.
- D. A resident must be assigned to the rotation to help supervise the student.

If you meet the criteria listed above and wish to apply for a clinical clerkship or elective, please complete and return the application form.

PROVIDENCE SACRED HEART MEDICAL CENTER AND SPOKANE TEACHING HEALTH CENTER RESIDENCY PROGRAMS

APPLICATION FOR MEDICAL STUDENT CLERKSHIPS/ELECTIVES

It is expected that your clinical work will be part of the academic requirements for graduation from your school. For this reason. It is essential that the authorization for taking a clerkship at this institution be received from your Dean's Office. The application provides for this authorization, and for the required certifications and compliance documents.

Please read all instructions and the application carefully:

Complete Section I and have your school complete Section II and the certification. If your school does not track some of the information in Section II, you must provide to your own schools' certifying officer any documentation needed in order for your school to fully complete and certify all of the questions in this section. Incomplete applications cannot be processed.

At this time, we can only accept and process "paper" applications.
